

# Lenovo ThinkPad

The affordable, dependable laptop of choice for global corporations and large enterprises is newly refined and more powerful than ever. Thanks to a modern form factor that houses the next-generation AMD Ryzen™ PRO processors, the latest AMD Radeon™ Graphics, 2TB storage, plus an optional 63 Whr battery for true all-day power, the Lenovo ThinkPad L14 Gen 4 is a high-performing partner for the work-from-anywhere workforce.

This Lenovo ThinkPad is thin and light, with an impressive screen-to-body ratio. It also offers enhanced features to improve user experience in today's virtual meeting world, including a new FHD RGB camera and Dolby® Voice AI noise suppression technology for better videoconferencing, and expanded Wi-Fi and WWAN connectivity capabilities for access to Gigabit Internet speed in any location.

In addition to built-in ThinkShield and AMD platform security, this Lenovo ThinkPad is secured-core PC enabled and includes a Power-on Touch Fingerprint Reader and enhanced AI security features to protect users, their devices, and their data.

Plus, it is more environmentally responsible than ever thanks to Lenovo's reduced-emissions manufacturing process, PCC recycled materials in the cover and internal components, plus plastic-free packaging with 90% recycled content.
