

Lenovo ThinkBook

Smarter technology for all

Lenovo

Lenovo ThinkBook 14 Gen 9 *i*

For the small business owner and everyday professional, secure hybrid productivity is non-negotiable. Powered by the Intel® Core™ Ultra Series 3 processor with up to 50 TOPS NPU for AI acceleration, the Lenovo ThinkBook 14 Gen 9 *i* delivers high performance and an exceptional UX. Engineered to meet the modern demands of on-the-move SMBs, this thin and light Copilot+ PC improves operational efficiency and unlocks innovation, all with powerful Windows security.

The adaptive performance of Lenovo's smart power optimization intelligently balances energy use for improved efficiency and longer battery life. This impressive feature, combined with the 64Whr battery and up to Wi-Fi 7 connectivity, enables all-day freedom from the plug. And collaboration is more engaging than ever, thanks to the expansive 90% screen-to-body ratio, Smart Meeting, and noise cancellation, along with the 5MP camera¹. Ample I/O ports let you flex with workspace peripherals, while huge dual storage and scalable memory options support extreme expandability.

AI-ACCELERATED PERFORMANCE

The Lenovo ThinkBook 14 Gen 9 *i* empowers users with up to 50 TOPS NPU for a next-gen AI PC experience in a mainstream business laptop. Fueled by Intel® Core Ultra Series 3 processor with built-in Intel® graphics for smooth, fast frame rates, this go-everywhere device delivers incredible battery life, powerful performance, and the freedom to do more anywhere. The Copilot+ PC features further amplify everyday efficiency with business-ready AI for real-world benefits, including the latest innovations in on-device and cloud intelligence to enhance communication and increase productivity. Plus, Lenovo AI Now gives you access to proprietary LLMs based on your personal knowledge base, along with on-device IT expertise to assist you with PC configuration and troubleshooting.

DURABLE MOBILITY

This compact, lightweight device is ideal for hybrid professionals, from do-it-all business owners to multitasking marvels to admin superheroes. With a large 64Whr battery¹ for impressive unplugged productivity, the Lenovo ThinkBook 14 Gen 9 *i* enables everywhere get-it-done. This portable business powerhouse is worry-free as well, thanks to MIL-STD-810H durability and the new spill-resistant ThinkBook keyboard with fully replaceable keys. And with enterprise-level security features like dTPM to encrypt data, biometrics for secure login, and self-healing BIOS for system repair, along with Copilot+ PC security including Secured-core PC protection and Microsoft Pluton, you can conquer each day with confidence.

INSPIRING UX

Engage in immersive collaboration, with AI-driven intelligent meeting features and the 5MP RGB camera¹ with Microsoft Effects Pack (MEP) for background blur, eye contact, and other visual enhancements. The communication and accessibility features of this Copilot+ PC take virtual meetings to the next level, enabling real-time captioning and translation of audio-video content—ideal for global teams and customer interactions. Scalable memory, dual storage, and robust I/O connectivity further elevate the impressive experience. Sustainability features and certifications round out the awe factor, making the Lenovo ThinkBook 14 Gen 9 *i* a surprising must-have for elevated business productivity.

Lenovo Solutions & Services

Lenovo Solutions & Services were designed from the ground up to deliver smarter solutions that create better outcomes for your business.

LENOVO TRUSCALE DEVICE AS A SERVICE

TruScale DaaS is a convenient, predictable subscription model with a range of end-to-end services that help you avoid overprovisioning, reduce TCO, and promote circularity.

LENOVO CO₂ OFFSET SERVICES

Manage your technology carbon footprint, make tangible contributions to the environment, and support verified climate action projects with easy-to-purchase offsets. Lenovo CO₂ Offset Services estimates the carbon emissions across the device lifecycle through a seamless, transparent process.

LENOVO PREMIER SUPPORT PLUS

Elevate the SMB employee IT support experience to enterprise grade with the latest ThinkBook devices alongside Premier Support Plus. AI-powered insights help you do more and waste less. Premier Support Plus delivers seamless advanced support from anywhere with smarter proactive and preventive services. It's the ideal solution for your workforce in the office, remote, or hybrid to promote productivity, reduce downtime, and create a positive employee experience.

Lenovo ThinkBook 14 Gen 9 i

Committed to sustainability

At Lenovo, we're focused on providing smarter technology that builds a brighter, more sustainable future for our customers, colleagues, communities, and the planet. We're determined to build a smarter future for all through the products and services we offer. And we partner with Intel, the industry leader in sustainable semiconductor manufacturing.

As we continue innovating to provide technology solutions that are more energy efficient and human centered like the Lenovo ThinkBook 14 Gen 9 i, we stay focused on empowering you to meet your own sustainability goals—and solve humanity's greatest challenges.
