Lenovo ThinkPad L14 Gen 7

AMD Ryzen™ AI PRO 400 Series processor
for on-device AI with Copilot+ PC features

Enterprise-ready, value-driven, mobility device

Dependable performance, modern security
and lifecycle manageability

Intentional, responsible design

AMD
RYZEN AI
PRO 400 Series

Portable AI-driven productivity

Fueled by up to AMD Ryzen™ AI PRO 400 Series processors, the Lenovo ThinkPad L14 Gen 7 delivers enterprise-grade performance with next-gen AI capabilities for accelerated productivity, enhanced collaboration and strengthened security. With a powerhouse NPU, you can optimize local AI tools for secure and personalized intelligent assistance, as well as tap into Copilot+ PC on-device AI features to boost innovation, enhance communication and increase productivity. Plus, intelligent workload distribution ensures AI tasks are handled efficiently, preserving battery life and maintaining strong performance. Maximizing mobility, this compact and lightweight laptop boasts up to 2TB 2280 SSD storage and up to 64GB DDR5 memory to tackle data-heavy tasks with ease. Go-everywhere flexibility is built in as well, thanks to Lenovo Smart Connect enabling cross-device collaboration for sharing files, features and texts across phone, tablet and PC, as well as the full array of convenient connectivity ports.

Inspiring employee experience

High-value mobile computing has never been more impressive, thanks to legendary ThinkPad L Series innovation and multiple form factors for enterprise scalability. You'll love the immersive AI-accelerated collaboration features, including Lenovo Smart Noise Cancellation, large speakers with Dolby Atmos® and a 5MP RGB + IR camera, along with the crisp 14" display with up to 500nits brightness. The integrated AMD Radeon™ graphics deliver faster graphics performance for superior power efficiency and enhanced visual productivity for AI tasks. High-bandwidth Wi-Fi 7/4G LTE Cat6 connectivity and full-day battery combine for nonstop productivity as you move from in-office days to onsite customer meetings to work-from-home hours.

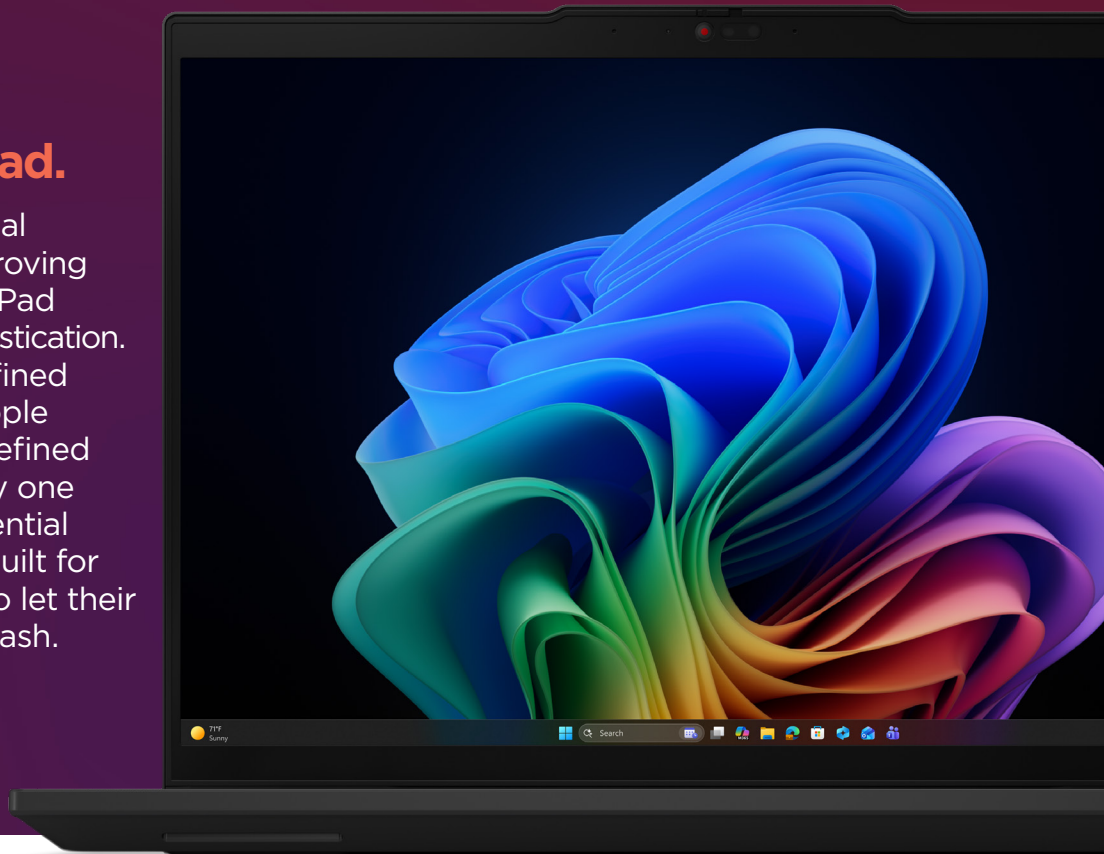

Responsible engineering

From accidental drops to daily bumps, the ThinkPad L14 Gen 7 is built to survive the hustle, clearing MIL-STD-810H military durability standards and 200 additional quality tests for go-everywhere confidence. Its responsible engineering combines industry-leading accessibility with CRU battery and storage, as well as using recycled materials and carrying top sustainable certifications. The comprehensive, modern and resilient security of Lenovo ThinkShield provides enterprise-grade protection from firmware level to the cloud, reducing vulnerability to ever-evolving cyberthreats. IT teams love this ThinkPad as well, with Lenovo's comprehensive and flexible Digital Workplace Solutions with the xIQ Digital Workplace Platform and AMD PRO technologies for security, manageability and stability.

There are laptops. And there's ThinkPad.

Unapologetically professional and always focused on improving performance, Lenovo ThinkPad devices deliver timeless sophistication. Since 1992, function has defined form, with purpose and people over pretension. Although refined through the decades to stay one step ahead of tech's exponential advances, ThinkPad is still built for outcome-driven people who let their actions speak louder than flash.

Purposeful design

- Obsession with purpose-driven design elements—nothing is merely ornamental.
- Premium materials for beauty, efficiency, and strength.
- Best-in class repairability (customer replaceable units, iFixit partnership, easily replaceable keyboard).
- Clean, modern finishes that impress without boasting.

Keyboard innovation

- Industry-unique TrackPoint, the fastest, most comfortable way to move the cursor, with precise control, fatigue-free movement, and accessibility.
- Natural curve key shape to center your keystrokes and improve typing accuracy.
- Industry-leading accessibility features, like tactile keyboard markers and lighted indicators.

Trusted quality

- Robust real-world durability to withstand any environment and temperature extremes.
- Hinge life and port hardiness to endure on-the-move productivity.
- Certifications and mechanical design that combine to elevate resilience against drops, spills, and bumps.

Lenovo's relentless quest for perfection has made ThinkPad the most consistently top-rated business laptop in the world. But it's not a laptop. It's a ThinkPad.

Committed to sustainability

At Lenovo, we're focused on providing smarter technology that builds a brighter, more sustainable future for our customers, colleagues, communities, and the planet. We equip and empower you to pursue your sustainability goals with smarter end-to-end solutions, from how we make and ship your technology to how you use and return it.

The **Lenovo ThinkPad L14 Gen 7** is another example of how we continue innovating to provide technology solutions that are more energy efficient and human-centered. And we're proud to partner with industry leaders like AMD as we strive to solve humanity's greatest challenges.

Services

Protection & Support Services

Designed to help maintain and evolve the capabilities of your devices over their lifespan with flexible options for warranty extensions, Lenovo Protection & Support Services also help minimize unplanned operating and maintenance expenses, enhancing the budget predictability of your IT operations.

Premier Support Plus

Direct access to advanced technicians for unscripted solutions, onsite support & a suite of smart services.

Premier Support

Advanced tech support 24/7/365 with single point of contact.

Accidental Damage Protection

Covers inevitable drops, spills & other accidents with unlimited claims for total peace of mind.

Digital Workplace Solutions with xIQ Digital Workplace Platform

Powered by Gen AI technology, Lenovo's comprehensive and flexible Digital Workplace Solutions with the xIQ Digital Workplace Platform create a hyper-personalized experience that boosts employee satisfaction and productivity, automating workflows to streamline tasks and reduce IT strain.

TruScale DaaS

Empower everyone with next-gen devices and maximize ROI with one flexible, subscription-based service for device lifecycle management, security, and sustainability.

TruScale DaaS for Sustainability

Modular DaaS solution with Sustainability services that help manage IT carbon footprint, reduce IT costs & boost ROI.

TruScale DaaS for AI PC

Bundles AI-powered devices, infrastructure, and services into a pay-as-you-go XaaS model.

Security Services

Build total cyber-resiliency from pocket to cloud. Strengthen your cybersecurity across every layer of your business with a comprehensive, AI-enabled one-stop solution.

Managed Services

Remote monitoring & management to enhance device health, security & reliability.

AI Services

From strategy to scale, Lenovo helps you design, deploy, and manage secure AI solutions that align with your goals and deliver measurable ROI.

AI Discover

Assessment of AI readiness across security, people, processes & technology for tailored roadmap to drive business value.

AI Adoption & Change Management

Helps integrate AI technologies, upskill employees, drive engagement to maximize ROI, addressing unique infrastructure & culture challenges.

ThinkShield

Lenovo is committed to being our customer's most trusted technology supplier. ThinkShield delivers **Comprehensive, Modern, and Resilient** solutions to defend your business.

COMPREHENSIVE

End-to-end protection against attacks at every level.

MODERN

AI-driven threat prevention, behavior-based analysis, and self-healing BIOS capabilities.

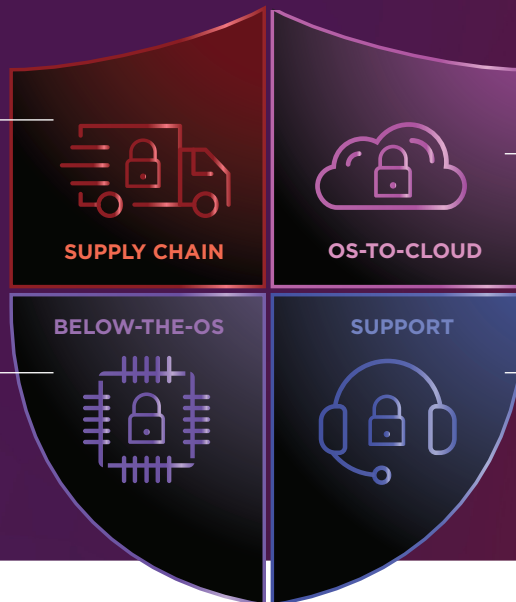

RESILIENT

Minimized disruptions by diagnosing and remediating device health issues for productivity.

Lenovo ThinkShield, protecting your business, everywhere.

Secure from the start

End-to-end supply chain protection with verifiable hardware and software assurance.

Smarter protection with AI + XDR

AI-powered security that safeguards against ransomware, phishing and data loss before they happen.

Integrity at every level

Fleet-wide firmware and hardware defense against rogue devices and advanced attacks.

Always on

Expert protection and support, seamlessly handled by one trusted partner, 24x7.

One partner, total protection.

Fueled by delivering smarter technology for all, Lenovo ThinkShield is constantly evolving our hardware, software and services to provide reliable security solutions to defend your business—without compromising end-user productivity.

Safeguard your assets

Ensure end-to-end protection and reduce attack surface

Automate protection to boost efficiency

Tailor plans to suit your needs

Stay compliant with regulatory standards

ThinkVantage Technologies

Enriching the Think experience.

For over 20 years, ThinkVantage Technologies (TVT) has been simplifying device management, increasing fleet stability, reducing the costs of IT admin/ops, and keeping endusers happy. It's a heavy burden to manage PCs. We meet you where you are to solve the challenges that keep you awake at night.

Reduce IT overhead through automation of deployment, patching & updates.

Accelerate modernization with tools that support modern management frameworks.

Improve user experience with proactive system health monitoring & self-healing capabilities.

Enhance security & compliance with integrated asset tracking & sustainability insights.

Lenovo Device Orchestration

Your administrative UI to optimize fleet management.

Lenovo Device Orchestration (LDO) is an intelligent endpoint management solution that empowers IT teams to monitor, manage, and optimize devices against common issues. LDO enhances the health, security, and performance of your devices, reducing downtime and boosting employee productivity.

- Gen AI power designed to help IT/Ops manage devices at scale with greater efficiency, insight, and automation.
- AI-generated proactive and predictive insights, remote access and control of PCs, and hardware inventory.
- Cloud-based service for real-time results with no infrastructure setup or investment required.
- Admin/Operations-facing controls for behind-the-user management.

ThinkVantage Technologies

From deployment to sustained productivity, ThinkVantage Technologies streamline workflow efficiencies through expert guidance, customized solutions, and centralized fleet management. TVT is device management, your way.
